

Simply logon onto the Library system at <https://chartowesde.concordinfiniti.com> with the ID that the library should have sent to you earlier this year.

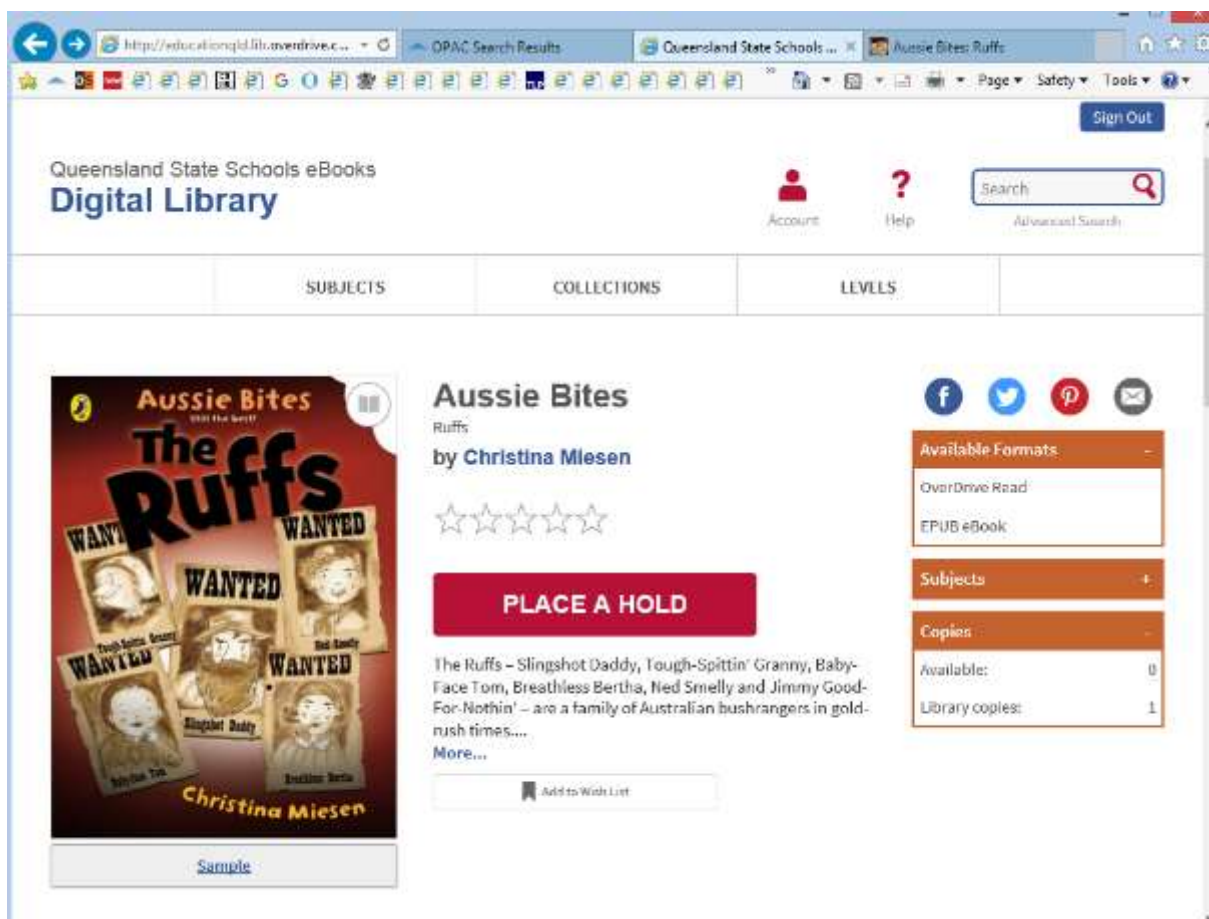

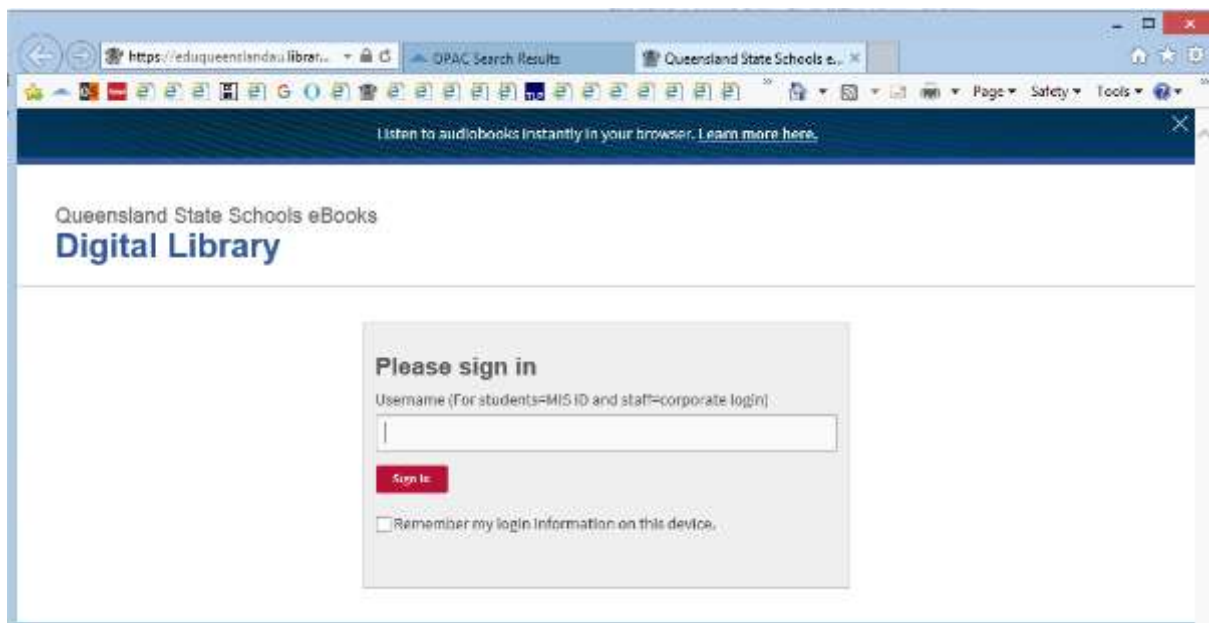

I searched for Aussie Bites – you will notice the Overdrive Tab. This takes you to the books on the QLD Education’s Digital Library resources. So click on this tab

You can see what books are available – click on line then click “Go to Overdrive”

Sorry, another login – this one needs just your EQ login like – fhyrt999

Here's the book you wanted to read...The greyed book symbol shows that it is currently on Loan.

I could ask that the book be made available to me when it is released from whoever is currently reading it.

However, if I want to read a book right now, I have recommended books below the one that I choose.

See how the book symbol is black, this means these books are now available for reading. (yellow Highlight)

By placing my mouse on the book, I can either sample it or borrow it.

Since the Universe got my interest, so I clicked “Borrow”

Recommended for you

Then I clicked “GO to Checkouts”, as I was testing the system, I ended up with three books available.

I can return them or read them in my Browser, or download them to my machine and use Adobe Digital Editions or Reader (win 8.1) to read these books.
