

BEAUTIFUL BALGAL BEACH, A HIDDEN GEM

There are so many exciting things to do and see when visiting Balgal Beach in Tropical North Queensland. Here is a little taste of the main attractions to give you some great ideas of what is available to you when you visit on your next holiday with your friends and family.

Why don't you bring your fishing rods and drop a line into the ocean, while the kids build sandcastles and roast marshmallows over an open beach fire.

You absolutely need to bring your swimmers and take a dip in the many refreshing crystal-clear creeks and waterfalls after a long day of exploring the lush and tropical national parks, full of native fauna and flora.

You must end the night by relaxing and watching the sunset over the water and mountain ranges while the local eateries prepare your dinner, or cook your own on the many free Barbeques available throughout the areas, before you retire to one of camping sites in the area or in the self-contained motels and cabins situated along the beach front.
