Lilly the leatherback turtle

Chapter 1:hatching

It was a fine day then a CRACK!
And shortly after that 40 eggs
hatched they dug there way
out of the sand along side
many others then all of a
sudden SKWAK, SKWAK.

Chapter 6:floating

Shortly afterwards she had floating syndrome a terrible disease that meant that Lilly floated and floated and floated and could not sink she knew it was the end for her because if a turtle floated it can't eat and if a turtle can't it will die. But as that thought went through her mind she had to fluff and then she lost her floating syndrome and she ate and ate.
